

ARBORITEC™

Futureproof Your Floors

# WELCOME

# TO THE WORLD OF **ARBORITEC**

We are a **Swedish** manufacturer of **high-tech** protective coatings for **hardwood** and **resilient** floors. We design **market-leading**:

- **Ceramic-Fortified** Waterborne Lacquers
- **Floor Oils**
- **Floor Maintenance** Solutions

With our **network** of customers and partners **worldwide**, we create, restore, and protect some of the most **beautiful floors** on the planet.

EVERY SUCCESSFUL **JOURNEY**

STARTS WITH A **FIRST STEP**

**First Coat** is an especially designed **base-coat** to prime most wood floors. **Ceramic fortification** gives this **primer** a superior drying time, a rich and smooth surface and is easy to sand back. The ceramic also minimises the risk of side bonding.

First Coat is a protective **ceramic fortified sealer**. Used together with Arboritec lacquers, it provides the first layer in a complete ceramic fortified coat. It is the perfect **foundation** for any of our **waterborne** systems.

### Mineral Hardness Comparison

**Knoop Hardness** Test values

<b>CONTENT</b>	Acrylic dispersion
<b>SOLIDS BY VOLUME</b>	38%
<b>SPECIAL FEATURE</b>	Ceramic Fortified
<b>VOC</b>	40g/litre
<b>RECOMMENDED USE</b>	Primer for Arboritec waterborne lacquers.
<b>COVERAGE</b>	8-10m <sup>2</sup> per litre
<b>DRYING TIME</b>	20-40 min

THE FUTURE IS **BRIGHT**

# OUR **STRONGEST** FINISH **INSTANTLY CURED** WITH UV LIGHT

UVElite is designed for **high traffic** commercial environments. This **instant cure** solution delivers the strongest, most durable, eco-friendly floors with **minimal downtime**.

## Instant **Access**

As soon as UVElite is **cured** with a portable UV light, the floor is **ready** for high traffic, minimising **Early Use Damage**.

## Versatility

A wise choice for busy **commercial** job sites or even active households on a **variety** of flooring surfaces. **UVElite** can be used on both **wood** and **resilient** floors to provide unrivaled durability, protection and **ease** of maintenance.

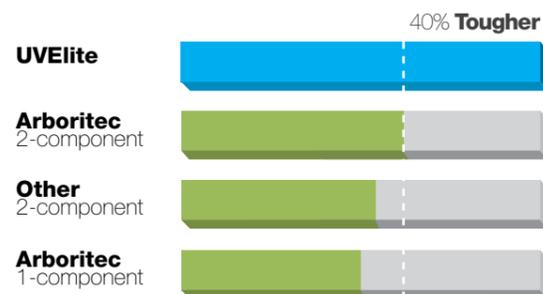

<b>CONTENT</b>	Waterborne UV cured polyurethane dispersion
<b>SOLIDS BY VOLUME</b>	32%
<b>SPECIAL FEATURE</b>	Ceramic Fortified
<b>VOC</b>	< 10g/litre
<b>GLOSS LEVEL</b>	X-Matt 5 Matt 20 Satin 45 Gloss 90
<b>CHEMICAL RESISTANCE</b>	Immediately resistant to grease, water and regular household cleaners.
<b>COVERAGE</b>	10-12m <sup>2</sup> per litre
<b>READY FOR FULL USE</b>	Immediately after UV curing

Visit [www.arboritec.com/products](http://www.arboritec.com/products) for technical data sheets and safety data sheets for **UVElite**.

# BENEFITS OF UVElite

**UVElite** minimises early-use damage to recently finished floors. It is instantly cured with **ultraviolet light** from a portable UV machine. UV light **reacts** the **photoinitiators** within the coating, causing them to **instantly bond** and complete the curing process.

## The New Durability Standard

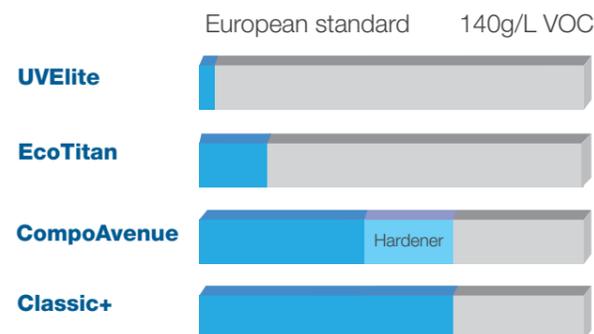

## Market Leading Protection

UVElite is over **40% more durable** than most market leading 2-component finishes.

## Setting Indoor Air Quality Standards

**UVElite** has **extremely low** volatile organic compound (**VOC**) levels and contains **less than 2%** of the allowable VOC levels set by some of the **strictest** air quality standard organizations **worldwide**. Given this, **UVElite** is one of **the most sustainable** solutions on the market for protecting floors.

## Ease Of Use

UVElite **flows** and **levels** well and has superior **working time**. Unlike 2-component lacquers, there is **no pot-life** or product **waste issue** to worry about.

# UVElite Application Process

After the final sanding, **take surface moisture readings** using a **pinless moisture meter** and note these background values.

# COMMERCIAL CASE STUDY

Modern retailing requires solutions that **minimise** commercial downtime.

## UVElite

A **busy** coffeeshop added **beauty** and **protection** to their wood floors **without** turning away a single customer. This challenge was met using Arboritec's 2-component oil, **Miracle Oil**, coated with **UVElite** ceramic fortified and **instantly** cured lacquer.

This beautiful and unique floor was created from **individual** end-grain mesquite blocks. After **sanding**, the floor was screened, vacuumed and damp mopped. **Miracle Oil** was applied to bring to life the **rich tones** of the **end-grain** mesquite and add an **initial layer of protection**. Next, **CompoAvenue** was applied to provide the **optimal chemical bond** between the oil and **UVElite top-coats**.

After CompoAvenue, **two coats** of **UVElite** were applied. Due to the **quick drying** characteristics of Arboritec waterborne lacquers, the **total time** to apply this commercial system was only **four hours**. After moisture levels had returned to acceptable limits, the floor was **cured** with UV light.

Once cured, furniture was replaced, **allowing** the business of this high-end coffeehouse to **continue** without interruption. Arboritec's **instant-cure UV** lacquer systems can deliver **commercial grade protection** to high traffic retail environments **overnight**.

# POWERFUL PROTECTION

# FOR DEMANDING ENVIRONMENTS

CompoAvenue and Genuine set the **durability standard** for 2-component waterborne lacquers. These products provide **advanced protection** in **high traffic** commercial settings.

## CompoAvenue

The **flagship** of Arboritec's traditional wood floor lacquers. It gives **exceptional adhesion and protection** on all surfaces: new, resanded and pre-finished. Designed for **high-traffic** environments, it can also be used to overcoat our 2 component Miracle Oil.

## Genuine

Arboritec's ultra matt **premium** lacquer. Genuine protects the **natural beauty** of any **wood surface** and is ideal for **commercial** floors. This too can be used to overcoat Miracle Oil, giving the wood a depth of colour with no shine.

# HOUSTON...

# WE HAVE **NO PROBLEMS**

**Classic+** brings reliable **cutting-edge** technology for durable floor protection. This lacquer will fulfill the **majority** of flooring jobs as it can even be made into a 2-component lacquer using an Arboritec hardener. This will increase durability and wear, and **reduce** the curing time to 3 days.

A **versatile**, forgiving lacquer that always exceeds expectations, **Classic+** is the best choice for a commercial **1-component** lacquer on the market.

<b>CONTENT</b>	100% Polyurethane dispersion

## Millic Comfort

Millic Comfort is **1-component** natural oxidative oil based on **pinewood** oil. It gives consistently great results and is suitable for **commercial** use. Millic Comfort is easy to maintain, and has low odour.

- **83%** solids
- **Available in** natural and white

<b>CONTENT</b>	Urethane-modified pinewood oil
<b>SOLID CONTENT</b>	83%
<b>COLOURS</b>	White Natural
<b>COVERAGE</b>	15-20m <sup>2</sup> per litre (depending on wood type)
<b>DRYING TIME</b>	3-24 hours to final polish 10 hours after final polish

## Hard Wax Oil

Arboritec Hard Wax Oil is an **oxidative** hardening Hard Wax Oil **based on** renewable natural ingredients such as pine resin oil, waxes and linseed oil. It is suitable for all **indoor wood types** and surfaces; floors, furniture and internal woodwork.

- **High resistance** to wear and tear
- **Easy and quick** to work with

<b>CONTENT</b>	Urethane-modified pine resin oil, linseed oil, waxes
<b>SOLID CONTENT</b>	45%
<b>COVERAGE</b>	20-30m <sup>2</sup> per litre (depending on wood type)
<b>DRYING TIME</b>	2 hours on first coat 24 hours on second coat

## China Oil

China Oil is a high performance **outdoor oil** based on Chinese Tung oil (85% solid content). Suitable for all kinds of untreated wood in outdoor areas, the **low viscosity** allows the oil to penetrate deep into the wood and give a **high level** of protection.

- **Contains no** fungicide
- **Available in** natural and teak

<b>CONTENT</b>	Tungoil and solvents
<b>SOLID CONTENT</b>	41%
<b>COLOURS</b>	Teak Natural
<b>COVERAGE</b>	5-8m <sup>2</sup> per litre (depending on wood type)
<b>DRYING TIME</b>	24-36 hours (depending on weather conditions and wood type)

# CLEANING

## Cleaner

Arboritec Cleaner is a neutral cleaning product specially formulated for **oiled** and **lacquered** wooden floors. You can also use this product on floors made of PVC, linoleum, vinyl, laminate and washable surfaces such as stone, tiles, glass, porcelain etc.

- **Solvent free** - Safe for the environment
- **Removes tough-to-clean** dirt and spills
- **Fast drying** without any streaks or smears
- **No harmful** odors or toxins
- **Available in:**
  - 750ml Spray Bottle
  - 1 litre Refill
  - 5 litre Refill
  - 1 litre Concentrate
  - 5 litre Concentrate
  - Floor Care Kit incl. 750ml Spray Bottle
  - Spray Mop Kit incl. 1 litre Refill

- **Not for use on** waxed floors

## Cleaning

**Before cleaning your floor,** remove all loose particles which might scratch the surface by vacuuming or sweeping. Arboritec Cleaner should be diluted as per instructions and applied using a Spray Mop or a dampened household mop.

Whilst mopping, rinse the Spray Mop pad or household mop regularly in clear water to remove collected dirt. Rinsing the floor after cleaning is not necessary.

# MAINTENANCE

## Refresher

To keep your **lacquered** floor in perfect condition and prevent it from wear effects it should be **maintained** with Refresher after every **5th** time using the Cleaner.

- **Modern maintenance** for lacquered wood, laminate, vinyl, PVC or linoleum floors
- **Dissolves itself** with each new application to avoid product build up
- **Reduces visual signs** of aging, wear and micro-scratches

## Oil Refresher

To keep your **oiled** floor in great condition and prevent it from wear effects it should be **maintained** with Oil Refresher instead of Cleaner every **5th** clean.

- **Saponified pine wood oil** to refresh the surface of oiled floors
- **Makes floors more resistant** to wear and prolongs the intervals between re-oiling renovation
- **Reduces visual signs** of aging and wear

## Satin Oil

Arboritec Satin maintenance oil can be used on **all kinds of oiled floors**; natural oils, 2 component oils and hard wax oils. It is fast drying, provides excellent coverage and delivers good **protection** for your floor.

- **For maintenance or heavy cleaning** of all oiled surfaces
- **Fast drying** with good coverage
- **Low odour**, the solvents used require no warning labels

Visit [www.arboritec.com/products](http://www.arboritec.com/products) for technical data sheets and safety data sheets for **cleaning & maintenance products**.

## China Oil

China Oil is a high performance outdoor oil based on Chinese Tung oil (85% solid content). Suitable for all kinds of untreated wood in outdoor areas, the low viscosity allows the oil to penetrate deep into the wood and give a high level of protection.

<b>CONTENT</b>	Tungoil and solvents	
<b>SOLID CONTENT</b>	41%	
<b>COLOURS</b>	Natural / Teak	
<b>COVERAGE</b>	5-8m <sup>2</sup> per litre (depending on wood type)	
<b>DRYING TIME</b>	24-36 hours (depending on weather conditions and type of wood)	
<b>PACKAGING</b>	6x1 litre per box 100 boxes (600 litre) per pallet 5 litre metal can 120 cans (600 litre) per pallet	
<b>ITEM NR</b>	1L Natural	3401
	1L Teak	3402
	5L Natural	3405

## Cleaner

Arboritec Cleaner is a neutral cleaning product specially formulated for oiled and lacquered floors. You can also use this product on floors made of PVC, linoleum, vinyl, laminate and washable surfaces such as stone, tiles, glass, porcelain etc... Leaves no film and has a neutral, clean scent.

<b>RECOMMENDED USE</b>	All factory-, and site finished wood and resilient floors.	
<b>CONTENT</b>	Ethoxylated hydrocarbons	
<b>DILUTION</b>	(Not for Cleaner Spray or Cleaner Refill) Oiled floors: 1:200; 5ml/1l water (20°C) Lacquered floors: 1:100; 10ml/1l water (30°C) Heavy cleaning: 1:20; 50ml/1l water (30°C)	
<b>PACKAGING</b>	10x0.75 litre Spray Bottle per box 6x1 litre plastic can per box	
<b>ITEM NR</b>	1L Concentrate	5101
	1L Refill	5109
	5L Concentrate	5110
	5L Refill	5105
	0.75 Spray	5107

## Refresher

To keep your lacquered floor in perfect condition and prevent it from wear effects it should be maintained with Refresher after every 5th time using the Cleaner. Refresher can be used for periodic maintenance on all polyurethane factory-, or site-finished wood floors.

<b>RECOMMENDED USE</b>	All polyurethane finished wood floors	
<b>CONTENT</b>	Copolymer-Acrylate, Ammoniac solution	
<b>SOLIDS BY VOLUME</b>	4%	
<b>DRYING TIME</b>	~ 1 Hour	
<b>PACKAGING</b>	6x1 litre per box 3x5 litre per box	
<b>ITEM NR</b>	1L	5111
	5L	5115

## Spray Mop Kit

This cartridge style spray mop has a handy spray handle to easily and precisely control the even disbursement of Cleaner. Includes spray mop pole, mop base, grey microfiber pad and 1 litre Arboritec Cleaner Refill. Can also be used to apply Refresher or Oil Refresher.

<b>RECOMMENDED USE</b>	All factory-, and site-finished wood and resilient floors.	
<b>INCLUDES</b>	1 litre Cleaner Refill, Microfibre Pad & Easy to handle Spray Mop Pole	
<b>ITEM NR</b>	Spray Mop Kit	5001

## Oil Refresher

To keep your oiled floor in great condition and prevent it from the effects of day to day wear, it should be maintained with Oil Refresher. Use Oil Refresher instead of Cleaner every 5th clean and your floor will look better and have extra protection between re-oilings.

<b>RECOMMENDED USE</b>	All oiled wood floors	
<b>CONTENT</b>	Saponified pine wood oil, Solvent free	
<b>DILUTION</b>	1:20 Refresher to cold water (<20°C) (50ml Refresher to 1L of water)	
<b>SOLIDS BY VOLUME</b>	4%	
<b>COLOURS</b>	Natural / White	
<b>DRYING TIME</b>	~ 1 Hour	
<b>PACKAGING</b>	6x1 litre per box 3x5 litre per box	
<b>ITEM NR</b>	1L Natural	5281
	1L White	5282
	5L Natural	5285

## Floor Care Kit

Floor Care Kit is designed for optimal cleaning results. Includes a sturdy aluminum pole that adjusts to a variety of heights for comfort, a 750ml spraybottle of Arboritec Cleaner, and a blue microfiber mop pad.

<b>RECOMMENDED USE</b>	All factory-, and site-finished wood and resilient floors.	
<b>INCLUDES</b>	750ml Cleaner, Microfibre Pad & Telescopic Mop Pole	
<b>ITEM NR</b>	Floor Care Kit	5000

## Satin Oil

The perfect choice to occasionally deep clean or touch up oil treated wood floors. It is fast drying, provides excellent coverage and delivers good protection for your floor. Arboritec Satin maintenance oil can be used on all kinds of oiled floors; natural oils, 2 component oils and hard wax oils.

<b>ITEM NR</b>	1L Natural	3301
	1L White	3311
	5L Natural	3305

## Hardener

Hardner can be used along with any 100%PU Arboritec lacquer with the exception of UVElite. The addition of a hardener (at a ratio of 1:10) will increase the curing time of the lacquer to 3 days, and make the finished floor harder wearing and more durable. Included with Arboritec 2-component finishes: CompoAvenue and Genuine. Also available for purchase individually.

**RECOMMENDED USE** Use with any Arboritec 2-component finish.  
**CONTENT** Contains Isocyanites  
**PACKAGING** 24x450ml per box  
**ITEM NR** 450ml 2004

## Roller Sleeves

These high quality, microfibre roller sleeves can be used with any waterborne or oil-based finish.

**RECOMMENDED USE** Use with Arboritec roller handle and adjustable telescopic roller pole.  
**ITEM NR** 10mm (for lacquers) 7091  
 6mm (for oils) 7095

## Extender

Use this product if you are applying lacquer in warm or dry conditions, (< 40% RH and >25oC). Extender can be used to increase the open time of any of our range Arboritec waterborne products with the exception of UVElite.

**RECOMMENDED USE** Use with any Arboritec 2-component finish.  
**CONTENT** Contains Isocyanites  
**PACKAGING** 16x100ml per box  
**ITEM NR** 100ml 2003

## Roller Handle

This sturdy roller handle fits all Arboritec roller sleeves. Designed with a convenient snap mount handle.

**RECOMMENDED USE** Use with Arboritec adjustable telescopic roller pole.  
**ITEM NR** Roller Handle 7092

## Microfibre Pads

These microfibre pads will effectively trap and remove dirt and dust from floor surface. Designed for use with Arboritec Floor Care Kit and Spray Mop Kit. Machine washable. Avoid fabric softeners for optimal, long-term results.

**RECOMMENDED USE** All wood and resilient floors.  
**ITEM NR** Spray Mop Kit Pad 5003  
 Floor Care Kit Pad 5004

## Roller Pole

Adjustable inter-locking roller pole that extends to 6.5 feet. Use the snap mount end to lock in the roller handle for ease of use.

**RECOMMENDED USE** Use with Arboritec roller handle.  
**ITEM NR** Roller Pole 7096
