# Keeping the appearance of the newly sanded oak wood

Private residence in Germany

A private residence located in Söllhuben in Oberbayern has undergone extensive renovation. One of the new exclusive details is the 115 m<sup>2</sup> vintage wood flooring made of old oak – a dazzling choice with the aim of creating a unique and charming atmosphere. The stunning floor, characterised by the ravages of time, has been finished with WOCA Neutral Oil and WOCA Neutral Oil Care in order to achieve a unique, warm looking allure and colouring.

**Floor installer:** Old Oak GmbH, Rosenheim, Germany

**Floor:** Old oak

**WoodCare Denmark surface treatment:**

**Basic finishing:** WOCA Neutral Oil

**Maintenance:** WOCA Neutral Oil Care

**Cleaning:** WOCA Natural Soap, Natural

# WOCA

## Neutral Oil and Neutral Oil Care

### The №1 "invisible" oil finish.

#### Neutral Oil system/the invisible unfinished oak design

WOCA Neutral Oil is a unique product respecting the famous WOCA penetrating oil philosophy. The oil is designed to protect the wood, providing a saturated and dirt resistant wood surface and yet the finish is completely invisible.

The WOCA Neutral Oil + Neutral Oil Care perform a system respecting the WOCA ethics about strengthening the wood from the inside instead of sealing the surface with a plastic layer on the surface. This allows the WOCA Neutral Oil system to be compatible with the WOCA nourishing Soap cleaning regime that simplifies easy and effective cleaning and light maintenance in the same mop on process.

WOCA Neutral Oil system is the perfect choice because:

- ✓ Provides oak wood a unique invisible design
- ✓ Protects the wood from the inside
- ✓ Strong and dirt resistant wood surface
- ✓ Through the special WOCA "invisible" technique, the unfinished color of the wood is maintained and nourished through the unique WOCA Soap cleaning.
- ✓ Ecological friendly due to the water based technologies providing fast drying results without having to add any hardening agents or similar.
- ✓ Solvent free/less than 1% VOC

#### The system – step by step:

1. The WOCA Neutral Oil performs the base coat that ensures a good saturation and protection of the wood.
2. The WOCA Neutral Oil Care is the top oil polish that ensures the final protection while ensuring the unique invisible/unfinished wood
3. The WOCA Natural Soap cleans and nourishes the Neutral finish effectively while strengthening the oil finish with every cleaning.

Another beautiful example of a WOCA oil system that simply gets better and better as time goes.
