

# Product specification sheet

- Profile type:

**588**

- Product group:

**Euro-Clip®** (Trademark of Küberit)

- Description:

connecting profile (T-profile), a patented two part clip system for floating installation of floorings

- Application:

for all hard floor coverings connecting two floating floors or a floating floor to a glued floor as f.e. ceramic tiles

- Length:

3.0 m / 2.7 m / 1.0 m / 0.9 m

- Width:

44 mm

- Expansion:

2 x 10 mm

- For flooring heights:

10 to 16 mm with a 2 mm underlay

- Material:

aluminium

- Alloy of the profile:

AlMgSi0,5F22

- Aluminium colors:

anodized in F4 silver, F5 gold, F6 bronze, F2 stainless steel optic, F9 sand as well as F3 polished

- Wood decors:

15 wood decors are available, see brochure or website for more information

- Digital printed decors:

colour matching decors with digital printed technology possible with abrasion surface of AC3 to AC5

This product is not subject to the Construction Product Regulation.

## **Installation**

1. Screw or dowel the base profile (=plug mounting). In case of floor heating, fix the profile by using a 2-components glue.
2. Adapt the hard floor covering and pay attention to the expansion joint.
3. Put the top profile carefully on the base profile, bring it first into the right position, then clip-in the top profile by well controlled hammer blows.  
Attention: Never use the hammer directly but use a hardwood with felt.
4. Finished!

For further information of the installation use the brochure Euro-Clip® from our website or additional installation information as well as our installation video.
